

# Brief Profile

Hoflieferanten Berlin is a sustainable catering company based on Pariser Platz in the heart of Berlin. For over 25 years, the company has been synonymous with high-quality event catering and handles approximately 300 events annually—ranging from conferences and business events to large-scale gatherings with several thousand guests.

At the heart of its work is a modern food concept that combines culinary creativity with a clear commitment to sustainability. Hoflieferanten Berlin consistently prioritizes seasonal, regional, and preferably organic products, as well as transparent supply chains. Sustainability is not merely a trend here, but an integral part of the company's philosophy, as evidenced by certifications such as ISO 20121 in the field of sustainable event management.

Culinary-wise, the company follows a “veggie-first” approach: Vegetarian and plant-based dishes form the foundation, while meat and fish are used thoughtfully and as complementary elements. The cuisine blends international influences with regional origins and is characterized by artisanal precision, creative menu development, and high-quality standards.

A key factor in the company's success is its interdisciplinary team of experienced chefs, service staff, and event experts. Menus and concepts are developed individually for each event—with the goal of creating unique culinary experiences that bring people together.

In addition to culinary offerings, Hoflieferanten Berlin provides a comprehensive service: from concept development and logistics to equipment and the selection of suitable venues from an extensive network in Berlin and the surrounding area.

As a modern catering partner, Hoflieferanten Berlin combines culinary delight, social responsibility, and event expertise—with the goal of creating memorable experiences that prioritize quality, values, and hospitality.
